

The logo for ISDI, with 'IS' in blue and 'DI' in red, set against a white background.

ISDI

DESIGN + INNOVATION

11 MONTHS IMMERSIVE POSTGRADUATE PROGRAM

A 3D printed robot with a smooth orange top and a black base, sitting on a white mesh surface. In the background, a workbench is cluttered with various tools and components.

Getting Innovators closer to the World

DESIGN + INNOVATION

Design Thinking is increasingly an integral part of business, product and service strategy. The Design and Innovation program at ISDI empowers you to become a creative catalyst with a systematic approach to innovation. Whether you work in the Digital area, Business, Healthcare, and Education or in a Non-Profit organization, this hands-on training in the core principles of design thinking and entrepreneurship will help you solve wicked and perplexing challenges with ease. The program is designed to equip you with tools that broaden and deepen your skill-set and teach you the know-how of design thinking. It will help you to adopt a human-centered lean-thinking mindset, up-skill your experiences to position yourself as a forward thinker with excellent leadership skills.

OVERVIEW OF THE PROGRAM

The program offers multifaceted & strategic approaches to design, innovation and creativity, so the students will broaden their knowledge, as well as delve into the new challenges and opportunities facing these environments. It is a multi-disciplinary program that combines technical-scientific aspects of design and innovation with the socio-cultural aspects giving students a 360-degree exposure to the subject.
