ABOUT PRE COLLEGE ACADEMY

ISDI's Summer School - Pre College Academy helps young minds discover their **creativity & imagination** through a unique program that combines engaging exercises and collaborative projects. It stimulates the students' capacity to think out of the box and challenges them **to find tangible solutions to problems.**

The program is designed to help participants find where their interests and skills lie and make better **academic & career choices.**

Through a transformative training process, **the Summer School builds art and design skills, leadership, teamwork & confidence in young students.** It shows the linear and lateral ways of solving problems and encourages them to channelize their enthusiasm and energies in a productive & creative direction.

Over the two weeks, students pursue a college-level curriculum with studio classes, reviews and immersions.

They will also learn to work alongside highly motivated students to shape their portfolio and explore creative education options.

IMMERSE YOURSELF IN A DESIGN

PROCESS AND ACHIEVE THE UNEXPECTED
